Government Solutions

Who we are

At ESI, we design products for the movers and shakers of this world—work gear that keeps you active, healthy, focused, productive, and engaged, every single day. The pace of business is faster than ever, but we're here to propel you forward at work, at home, and in between.

Geared for today's fast-paced lifestyle, our extensive catalog of work gear will empower you to be energized and productive.

Solutions for Government

For over a decade, ESI has been providing federal agencies, state and local government, higher education and non-profit organizations with the tools to create high performance work environments. As a leader in ergonomic work gear, our products help you to enhance productivity and wellness in every area of your facility. Known for our award-winning customer service and high quality products, we make it easy for government to get what they need to improve ergonomics and support technology through all areas of the workspace. Partnering with resellers across the U.S. and internationally, ESI can meet any socio-economic goal your agency needs. ESI stands ready to help facilitate contracting objectives for your government projects quickly and efficiently.

The ESI Difference

48 hour shipping

We can fulfill orders in as little as 48 hours based on product on-hand availability. We do this by maintaining high levels of our most popular products so you can meet ambitious deadlines and schedules. Our exceptional fulfillment service ensures you get the products you want, when you want them. Unless otherwise specified, most of ESI's products ship within two business days after your order is placed and acknowledged.

15 year warranty

Our work gear is backed by an industry-leading 15 year product warranty – giving you confidence to take on your work, your way. View our full warranty policy at esiergo.com or contact our Customer Service Department for more information.

Socio-economic partners:

8a, Native American, Alaskan Native, HubZone, SDVOSB, EDWOSB, WOSB, MBE, MWBE, and Veteran owned

State contracts:

Alabama, Arkansas, California, Florida, Massachusetts Higher Education (MHEC), Mississippi, New Mexico, New York, North Carolina, Pennsylvania, South Carolina, South Dakota, and University of Alabama

Cooperative purchasing agreements:

Contracted Supplier

Terms and conditions vary by contract. Please visit esiergo.com for the most up-to-date information for each contract.

Award-winning service

Our customer obsessive, award-winning team is on call to assist you with all your work gear needs. We are ready to answer your questions or recommend products that help you achieve your best.

Monitor arms

Set your screens for success

Adaptable for any workspace, flexible monitor arms can optimize your desk space and increase your productivity. Easily adjust up to six monitors to maximize comfort and efficiency. Configurations grow with you, so your monitors will keep pace with your creativity.

Product shown: Edge2-MS, Lustre, FlexCharge4

Optimize the benefits with monitor arms

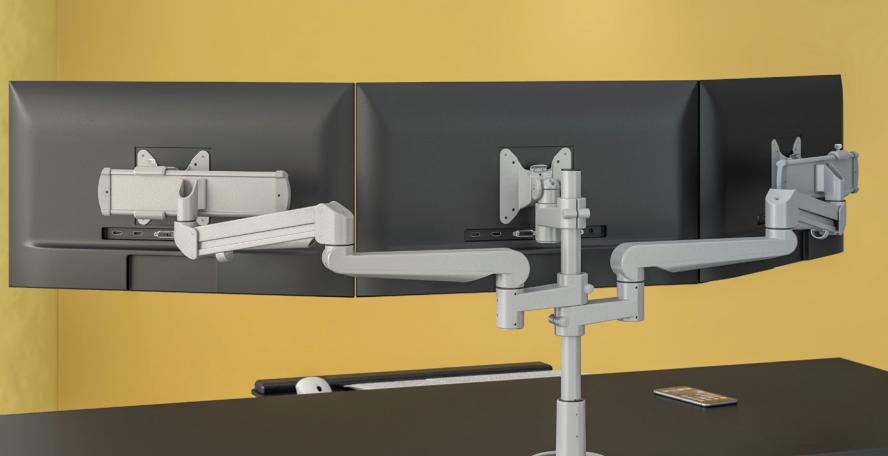

Work more effectively and maximize workspace with custom configurations for 1–6 monitors. Monitor arms that fit any budget while alleviating neck, shoulder and eye strain.

Heavy monitors

A wide range of arms can support monitors from 4.4 lbs to 42.0 lbs.

Sliders

Position virtually any monitor ergonomically side-by-side with ESI's unique patent pending slider. The slider adds an additional 9.0" of horizontal adjustability, so even monitors of varying sizes can be positioned flush.

Product shown: (Top left) S2S, Eppa2; (Bottom left) Evolve3-FMS; (Right) Evolve1-F

What to consider when selecting a monitor arm

Number of monitors

ESI offers solutions for as few as one to as many as six monitors. Should the needs of the user change, the Evolve series can easily be modified in the field to accommodate additional monitors and changing work environments.

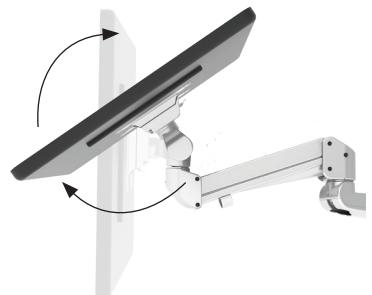

Height adjustment

Monitor arms offer various types of height adjustability. The most user-friendly option is dynamic height adjustment which allows the user to adjust the monitor height quickly and easily with just the touch of a finger.

Motion arms move your monitor straight up and down.

Weight of monitor(s)

ESI's standard monitor arm configurations support the average monitor which weighs between 6–17lbs. For heavier monitors and all-in-one PC's, ESI recommends the Edge-Max series.

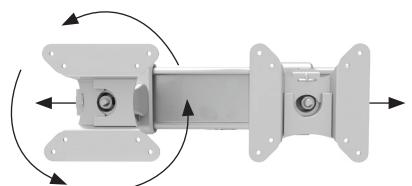

Size of monitor(s)

Most users prefer to have their monitors side-by-side as close as possible with no gaps between them. The versatility of the ESI Evolve series allows up to 41 inch monitors to fit side-by-side. Configurations that include a slider will provide additional horizontal adjustability, allowing monitors of varying sizes to fit together seamlessly.

VESA mounts tilt up and down, providing a flat writing surface for touch screen monitors.

Size and shape of the worksurface

Shallow worksurface depths 24 inches or less, are best suited for monitor arm configurations with fewer limbs or the Evolve slider. For applications that require extended reach, ESI recommends an Evolve configuration with multiple limbs. When positioning two or more monitors side-by-side in a 90° corner, the maximum monitor size will be reduced. Please contact our Customer Service Department to discuss your specific applications and requirements.

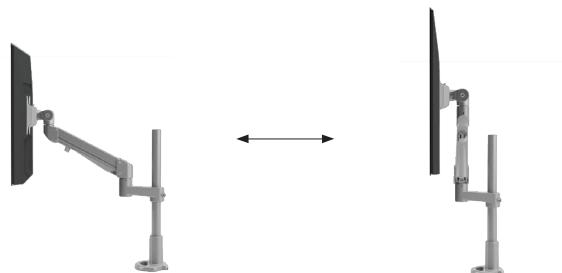

Sliders move your monitor left and right while retaining monitor tilt and ±90° monitor rotation.

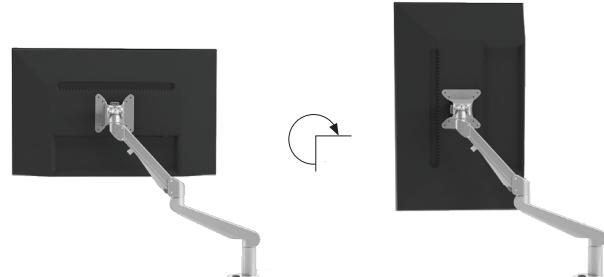

Monitor arm movement

Within the ESI monitor arm collection there are many common movements.

Extension/retraction

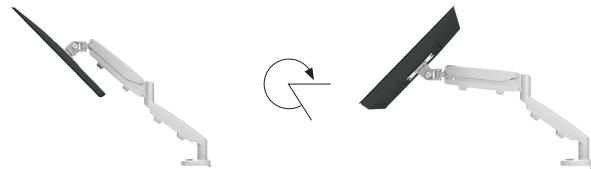

Monitor rotation

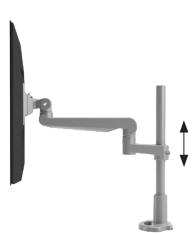

Landscape

Portrait

Tilt

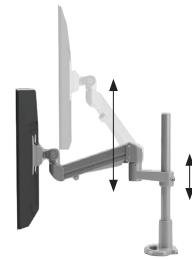

Height adjustment

Fixed arms:

The arms can be mounted at any height along the pole

Dynamic motion arms:

Motion arms can move up and down with finger touch adjustment

The arms can be mounted at any height along the pole

Height adjustable tables

Raise the bar, and the table

Keep moving throughout your day with height-adjustable tables. Sit or stand options can be quickly and easily tuned to your comfortable height. Adaptable for any workspace, these tables can be used for workstations, individual offices, training rooms, and open environments. Options include electric, pneumatic, and crank bases, with two or three-leg configurations.

Product shown: (Top left) Weight Adjustable Espree, Eppa, Centro, Railway; (Bottom left) All-Flex 3-leg, Evolve2-M, Solution Ultra, CPU05, FlexCharge4, Lustre, Conceal (Right) VictoryLX 2-leg, Evolve2-FM Evolve1-M, FlexCharge4, Centro, Conceal, Railway, Solution All-Fit,

Options for every need

Electric, Pneumatic, Weight Adjustable, and Crank table bases that meet any height adjustable needs improving user well-being and productivity.

Movement made easy

ESI's table bases offer smooth height adjustment while supporting a broad range of worksurface weights that encourages standing. Standing can increase user productivity and energy levels.

Retrofit workspaces

Easily retrofit spaces with power limitations or convert existing worksurfaces with a height adjustable desk.

Product shown: Trada, Edge2, FlexCharge4, Lily LED, Solution All-fit

Sit-to-stand workstations

Sit, stand, be well

Stay comfortably on the move with desks that quickly and easily adjust to the best height for you. Sit-to-stand workstations support monitors or laptop computers, and feature built-in keyboard platforms. Any fixed-height workstation can be easily retrofitted to offer adjustable height options, so you can keep your momentum and your mobility.

Product shown: Eppa2, S2S, FlexCharge4

Any workstation can be sit-to-stand

With many options that sit atop or clamp to worksurfaces, any workstation can be outfitted for sit-to-stand capabilities with minimal, to no assembly.

Weight adjustable

The S2S offer users weight adjustability making it easy for anyone to convert their desk to standing height with up to 35 lbs. weight capacity.

Maximize efficiency

Keep the monitors, keyboard and writing platform all together. Flexible positioning allows vertical adjustment while everything moves as one unit.

Product shown: S2S

Power solutions

Plug in to power up

Position the power where you need it. Worksurfaces get a charge with the FlexCharge series, while workstations can be wired with the Railway series. Flexible mounting options make these adaptable for any workspace including individual workstations, conference rooms, collaborative spaces, and benching environments.

Product shown: Railway, FlexCharge4, Edge, Centro, All-Flex 3-leg

Open office solution

Optimize open space with Railway data and power rail, bringing power to single or multiple users.

Power within reach

The FlexCharge4 puts power within reach for individual desk or benching environments that can be clamped or screw mounted above or below worksurfaces.

Powered collaboration

The FlexCharge9 is ideal for any collaborative area or conference room. Charge up to nine devices with quick-charge USB ports and AC units to keep all users productive.

Product shown: (Top left) FlexCharge4C; (Top right) FlexCharge4, Conceal; (Bottom left) FlexCharge3; (Bottom right) FlexCharge9

Reclaim your workspace

Adaptable for any workspace, laptop solutions save desktop space and cut down on clutter. Double your view when you use your laptop as an additional screen at your workstation. Each is easily adjustable to fit your style, so you can have your work, your way.

Stow and go

ESI's flexible laptops solutions allow users to comfortably adjust laptops when in use, and then stow it out of the way when done.

Product shown: (Left) Tech Dock, All-Flex 2-leg; (Right) Edge2Combo, Espree, Casters

Keyboard solutions

Just your type

Increase your productivity with keyboard solutions. Each is easily modified to fit your preferences, and features built-in elements like tilt adjustment, palm rest, and glide track. From emails to spreadsheets, we'll make every keystroke comfortable.

Adjustability and comfort

A range of keyboard solutions accommodate user preference for ergonomic positioning of hands and arms, as well as distance from monitors.

Product shown: (Left) Solution 1, VictoryLX 3-leg; (Top right) Solution 2, Victory-LX 3-leg; (Bottom right) Solution Ultra

Lighting

Another bright idea

Shine your light exactly where you want it with desktop task lighting and under cabinet lighting. Lights feature dimming options, occupancy sensors, and other energy and convenience features. Workspace lighting provides flexible tilt and rotation so you can brighten your workspace and bring on the workday.

Multiple users

ESI's adjustable lighting can improve visibility for all users illuminating workspaces for changing needs.

Product shown: (Top left) Lustre, FlexCharge4, Edge2-MS; (Bottom left) G2; (Right) Lily LEDX

Wall-mounted work gear

Get your office in gear

Deliver work gear in limited spaces with wall-mounted solutions. Ideal for multiple users in community spaces, wall mounted work gear increases efficiency, productivity, and collaboration. Amplify your team's productivity with gear tailored for your space.

Free up space

Take advantage of wall-mounted solutions to provide access to technology when space is limited.

Product shown: Titan2-Edge

Work gear on wheels

Built-in wheels make this convenient equipment portable and easy to move so you can keep technology accessible for an efficient work environment.

Tools for movement

Wheels offer added flexibility to move gear where you want it, when you want it, without the added strain.

Product shown: (Left) WOW01, Birdi; (Right) Utility Cart

High performance workstations

ESI offers complete ergonomic solutions to increase user productivity, comfort and wellness. Enhance workstations by including adjustability for seated and standing positions, monitor height and distance, task lighting, as well as CPU support. Add the versatility and organization of power access and wire management to keep users ready to go.

Product shown: All-Flex 2-leg, Edge, Pixie-LEDX, CPU Mini, FlexCharge4, Solution 1CC, Railway, Casters, Conceal

Sustainability

Sustain and strengthen our environment with ESI. Our company is dedicated to selecting products and adopting forward-thinking procedures that support sustainability. We consider people and our planet with everything we do—from selecting product materials, to recycling programs and our facility operations. When you choose ESI, you are choosing to support our proactive approach to creating quality work gear that also works for the environment.

Spare parts recycling

ESI's Edge and Evolve series of monitor arms are shipped with both a desk clamp and grommet mount included—making them simple to order and install. After the installation is complete, the unused desk clamp or grommet mount can be sent back to ESI at no cost to you. ESI will then properly dispose of or recycle the parts as appropriate. Our Spare Parts Recycling Program prevents leftover parts from taking up space in your facility or in a landfill. Contact our Customer Service Department to participate.

Level certification

LEVEL was created to deliver the most open and transparent means of evaluating and communicating the environmental and social impacts of furniture products in the built environment. To put it simply, LEVEL is to commercial furniture as LEED is to buildings. Also like LEED, LEVEL is comprehensive. It addresses criteria across corporate, facility and product impacts in a way that few other certifications do. If you see a level certified product, you can be assured that every part of the process from manufacture to delivery has been tested to ensure that you are getting quality products made safely and ethically, with a minimal environmental footprint.

esi.[®]

gives back

Our corporate commitment to our community drives us to give our time, talent, and resources to those in need. Each year, ESI supports a variety of local philanthropic activities with product donations, financial gifts, and company-wide volunteer efforts. When we all lend a hand, we create momentum to make our community a better place.

As a Fellowes brand, ESI supports community and culture through philanthropy. Fellowes Brands has established the GIVE™ program, which is dedicated to building local and global partnerships which address humanity's greatest needs. The programs' guiding principles align with our strong values as a company and are the hearts of our people. GIVE is committed to supporting initiatives in four key areas: social services, world aid and development, education and cancer research. We are honored to work as a team in building strong communities, improving lives, and providing a better tomorrow for our world today.
